NIM+

Volume III - Subclasses

Nim+ is a free community-made zine, collecting homebrew content in themed volumes that are easy to use at the table. Entries for Nim+ are entirely sourced from community collaborators. If you wish to participate in future volumes, you can find a link to the official Nimble Discord server in the back.

Content in this zine was made entirely by volunteers. While the entries have been edited for consistency and balance, they may not be perfectly balanced. Use your best judgment when introducing Nim+ to your table, and feel free to tweak it to your liking.

Volume III is all about subclasses – 2 new subclasses per class for a grand total of 22. These subclasses can be used like any regular subclass, and cover a variety of fantasies, themes and complexities.
