

OATH OF EVERFROST

THE OATH OF EVERFROST IS SWORN BY FEW. VRIJ, Aspect of Nocros, embodies loneliness, the everfrost in the Frostfang mountains and the undiscovered. As such there are few that have discovered this aspect and even fewer that have a connection with it that allows them to draw from its primordial power.

ATTRIBUTES OF VRIJ

Cold. Vrij resides in the cold mountains of Frostfang, eternally surrounded by a storm of everfrost. Those who take the Oath of Everfrost must embrace the cold in all its forms.

Everfrost. Everfrost consumes all, magic, life and warmth. It can spread like an infection or flash freeze those who are afflicted. Followers of this oath must embrace the extreme cold, the helplessness of everfrost and persevere anyway. They cannot rely on other or outside help or magic, they need to be strong alone.

Undiscovered. Vrij is discovered by few. Followers of this oath often take up a fake personality to hide their true self. Followers should not reveal the source of their power, or who they are. But even Vrij shows itself at times, especially to its followers.

Caves. The caves symbolize the depths and secret of Vrij, followers of this oath ...?

Solitude. Followers of this oath shall find power in solitude and embrace loneliness.

CHANNEL DIVINITY

When you take this oath at 3rd level, you gain the the following two Channel Divinity options (im giving you two so you are not reliant on being alone)

Touch of Everfrost. You can use your Channel Divinity to call upon the Everfrost. A creature within melee range is afflicted with Everfrost for 1 minute unless it saves a constitution saving throw, it can repeat this saving throw at the end of its turn. A creature afflicted by Everfrost cannot use reactions and it cannot cast spells.

Aura of Solitude. Whenever you stand alone you can use your Channel Divinity to unleash devastating frost for 1 minute. You are surrounded by a storm of frost that gives disadvantage on perception checks and attack rolls to all other creatures except for you. Additionally when you attack a creature within the storm you deal an additional 1d8 cold damage. After this effect ends the cold causes you to take a point of exhaustion.

AURA OF COLD

Beginning at 7th level, magics of ice and winter surround you, warding you from the harsh cold. You and friendly creatures within 10 feet of you have resistance to cold, fire and necrotic damage and are not effected by changes of temperature.

At 18th level, the range of this aura increases to 30 feet.

FROSTS'S SANCTUARY

Starting at 15th level, you have advantage on death saving throws. Also, when a creature hits you with a melee attack they take cold damage equal to your Charisma modifier (minimum of 1).

FROZEN CRUSADER

At 20th level, you emanate the winds of winter, dropping the temperature around you, your skin turns blue and hair turns white.

Using your action you gain the following benefits for 1 minute:

- You emanate an aura of 30ft, which is considered difficult terrain for hostile creatures.
- You are immune to cold and fire damage.
- Hostile creatures within your aura lose their resistance and immunity to cold damage. Creatures without a resistance or immunity to cold damage gain vulnerability to cold damage.
- When you use your Divine Smite feature, you can choose to deal Cold Damage instead of Radiant Damage.

Once you use this feature, you can't use it again until you finish a long rest.
