THE CREATION

RNATA HOMOMACHINA, WAS THE FIRST PROJECT to succesfully create not only sentient automaton, but also one that combines primordial magic and Arcane magic. Carmelio is the second automaton to be created in this project and possibly the only one that is still operating. As such he

fills an extremely important role as a sentient automaton in a mechanical revolution. Will he lead the other automatons to sentience and break them from their chains?

CLASS FEATURES

LEVEL 3: HARMONIC SPELLS

You govern over both the primordial and the arcane, you gain access to the cleric spell list and the sorcerer spell list.

Additionally you gain access to the following spells, these do not count against your prepared spells.

DIVINE HARMONY SPELLS

Sorcerer

Level	Spells
3rd	Cure Wounds, Aid, Lesser Restoration, Protection from Evil and Good
5th	Dispel Magic, Protection from Energy
7th	Summon Construct, Aura of Purity, Aura of Life
9th	Greater Restoration, Wall of Force

LEVEL 3: OVERCHARGE

Once per short rest you may, when casting a spell, upgrade the expended spellslot by 1. (For example cast Magic Missles on level 1 and upcast it for free to level 2; Cast Dispel Magic using a 2nd level spellslot and this feature!)

LEVEL 6: SPIRITUAL REBIRTH.

You gain the ability to expand your mind to a nearby machine. You can expand your thoughts to an automaton within 60 feet of you that you can see. You may share thoughts or commands with the automaton as long as the commands are in harmony with the targets general directive.

Once per long rest you may also attempt to extend you consciousness to an automaton, assimilating it into your own system. For 1 hour that automaton regards you as friendly and you may command it as a free action on each of your turns. After 1 hour the Indigo Aurora of the assimilated automaton cracks and breaks.

LEVEL 14: OTHERWORLDLY BEING.

Starting at 14th level, you can use a bonus action to use mechanical Metamorphosis. This allows you to change your form into the clockwork version of any known being. You may choose to gain a swimming, climbing, burrowing and/or flying speed by manifesting the appropriate features. Your swimming, climbing, burrowing and flying speed is equal to your walking speed.

If you choose to increase your size you loose 3 AC and gain 25 Max HP per size larger than your original size. Additionally you gain disadvantage on Dexterity saving throws. Mage Armor needs to be cast at least at level 4 to take effect while mechanical Metamorphosis is active. When changing between sizes all damage is converted into the new form.

If you choose to decrease your size you gain 3 AC and have disadvantage on Constitution and Strenght Saving throws, additionally you gain advantage on Dexterity saving throws.

LEVEL 18: GOSPEL

Spiritual Rebirth can be used once per short rest and the automatons that are assimilated obey you indefinitely. There is no limit to the amount of automatons that can be assimilated.
